

ETF AIIF

EcoWater Series • Air Injected Iron Filter

Clean water.
Green future.

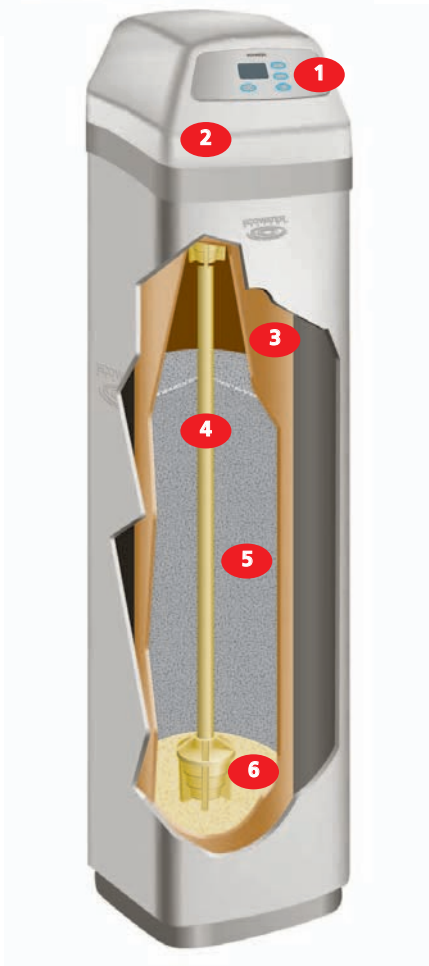

Eliminate Problem Water for Good

Patented Air Injection/Chemical Free Iron Filter

Chemical free system is clean and economical, using air instead of bleach, chlorine or potassium. Continued fresh air provides oxidation without worry of capacity.

Automatic Bypass

- 1 Electronic Timer Controls**
Electronic timer controls regeneration frequency. Full menu-driven options.
 - 2 Solenoid Venting System**
Solenoid valve venting allows for a greater range of operating pressures, as well as makes it easier to service.
 - 3 Multi-Wrap Reinforced Resin Tank**
High Density Polyethylene (HDPE) liner with an epoxy fiberglass composite winding. Doesn't deteriorate, rust, or corrode.
 - 4 Full One-Inch Riser**
One-inch diameter for increased flow rates, which ensures that household demand is adequately met.
 - 5 Oxidizing/Filtering Media**
 - 6 Washed Quartz Underbedding**
Washed quartz underbedding aids in dispersion of water throughout the media tank.
- Energy Efficient 24-volt Transformer, 120-Volt Air Pump and Relay Switch**
Simplifies installation, maintenance and reduces electrical hazards. Integrates with timer control to inject air when water flows.

ETF AIIF (Iron Filter)

Specifications

	ETF AIIF
Maximum Clear or Red Iron Removal (ppm) ¹	20
Maximum Manganese Removal (ppm) ¹	0.2
Maximum Water Pressure (psi)	80
Maximum Water Temperature (°F)	120
Minimum Water pH	7
Maximum Service Flow Rate (gpm)	5
Minimum Backwash Flow Rate (gpm) ²	5-10 ³
Electrical Requirements:	
Timer	24-60Hz
Air Pump	115V-60Hz
Relay Switch	115V-60Hz

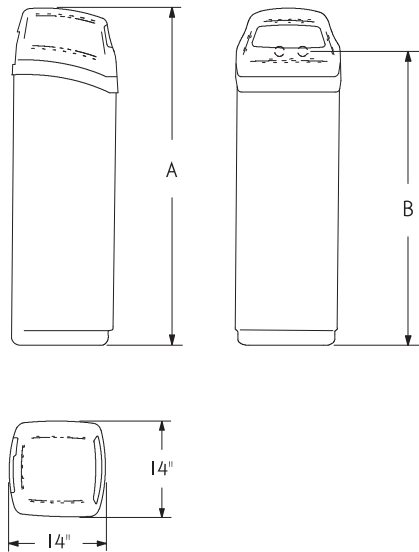

¹ Actual performance may vary depending on local water conditions.

² Well pump must be able to provide the minimum flow for 30+ minutes.

³ Flow rate will depend on media choice.

NOTE: This product is not for use or sale in California.

Dimensions

	ETF AIIF
Nominal Resin Tank Size	10" Dia. x 47"
A	58.5"
B	52.25"
